OWNERSHIP STATEMENT

KING LION BATTLE ROYALE

PRESENTED BY: TIKTOK
COACHES! 101 A NJ NON-PROFIT
PO BOX 4463 JERSEY CITY NJ 07304

ARTICLE I. OWNERSHIP STATEMENT

“King Lion Battle Royale,” is gaming competition, on the TikTok platform. The gaming competition is based on TikTok’s livestreaming events known as Match Play or League Play. The event is based on Omar Dyer’s name image and likeness on TikTok and other platforms.

SECTION 1.01 PLAN OVERVIEW

Practice:	Fund Raising and Production,
Name of Campaign:	King Lion Battle Royale
Campaign Manager:	Omar Dyer
Subject Matter Expert:	Battle Royale streaming and livestream

SECTION 1.02 OBJECTIVE

Omar Dyer is taking his page on TikTok under the moniker (@dyeromar) is building his page and presence with a challenge that models League Play or Match Play. The goal is to build a subscriber base, and build a fan base—using the platform and the systems on the platform.

SECTION 1.03 TARGET MARKET

The target market, is based on TikTok’s algorithm where the audience is a mature audience of 13 to 65, the market consist of a global stand. From mainland China, to Thailand, parts of UAB and America.

(A) PRODUCT DEMOGRAPHICS

This venture has apparel on the make mad comedian famous market exchange, and it has been integrated into the digital store.

(B) TARGET CONTACT DEMOGRAPHICS

TikTok, introducing the Livestream Match Play and League Play, where creators, can be battling against each other using their fan bases to construct gifts and team play.

SECTION 1.04 MESSAGE SUMMARY

Hey, welcome to my TikTok and be apart of the King Lion Battle Royale, I came up with the idea of King Lion and a battle royale challenge to help build my page. I’m sphere heading this initiative to create a battle league for content creators on TikTok.

SECTION 1.05 CALL TO ACTION

Omar Dyer is looking to raise his profile on social media with his latest rant and new space – podcast on twitter. In this podcast Omar Dyer battles artificial intelligence, known as ChatGPT and in the talk of discussion both monikers teach each other on how to advance on the internet. It’s an amazing show with a live debate over the internet with a human and a chatbox.

(A) WHAT IS THE DESIRED OUTCOME?

Be the social media empire to stream content, and produce content.

(B) WHAT IS THE PULL-THROUGH OFFER?

Omar Dyer with Mad Comedian is becoming one of Facebook / Instagram, Twitters, and TikTok most talked about weblogs, that is professionally organized by Coaches! 101 Productions.

SECTION 1.06 PROCESS

(A) LIST DEVELOPMENT

Hoodville INC, Battle 4 God, Mad Comedian “Take Over New York,” Open Mic: “Stopped & Frisked” You Ain’t Ready, Greatest Loser of All Times.

(B) PROSPECTING MECHANISM

We are using the social media platform to build an audience that can generate a production built for the theaters.

(C) PRE-EVENT FOLLOW-UP

Check for more updates on these selected events on their respective websites.

(D) POST-EVENT FOLLOW-UP

Check for more updates on these selected events on their respective websites.

SECTION 1.07 OPPORTUNITY QUALIFICATION PROCESS AND CRITERIA

Platform: www.tiktok.com/dyeromar

SECTION 1.08 PROJECT PLAN

Our plan is to use “TikTok” to self-promote Omar Dyer while building a website exclusively for the syndication of the show.

(A) NECESSARY EVENT RESOURCES

Resource	Role	Estimated Work Hours
Omar Dyer	Omar Dyer	undisclosed
Omar Dyer	Writer	undisclosed
Cash APP	Funding Partner	undisclosed
Tikok INC	Funding / distributor	undisclosed

Program Overview

Omar Dyer in promotion of his brand: Who is Omar Dyer on “TikTok, (X) formerly known as Twitter. Omar Dyer is trying to grow is fan base, and increase engagement by coming up with creative ways to draw attention and traffic to his profile on this social media platforms.

Article I. Who is Omar Dyer

Omar Dyer is reinventing himself on this platform with social media in the age of AI and the increase trouble shooting of content creators. Omar Dyer has been the godfather of going viral with his presence on Myspace, and his presence on Facebook. His growth into the world of TikTok and (X) platform shows his ability to adapt in the community as must see TV.

Section 1.01 Who is Omar Dyer: A Master Class on NFTS

As apart of the network, we are trying to build a brand under the King Lion Battle Royale Campaign. The Who is Omar Dyer: A Master Class on NFTS, is about showing and building NFTS. Plus it is about showing the TikTok community on the massive network Omar Dyer has been able to build.

Section 1.02 King Lion's Battle Royale

On TikTok, Live battling and League play has become the internet's version of must see TV. Creating this battle challenge using the rules set forth by TikTok has brought our interest in making lion's king of TikTok once again. The battle Royale is structured in a series of league play, where Omar Dyer battles competitors in a livestream setting, and the goal is to gain more diamonds as gifts from his supporters or sponsors.

Section 1.03 Social Media Influencer

Omar Dyer has a niche in building an audience on social media with his business acumen, and his shops on digital working connections. He has been able to build partnerships, and get his items onto shops such as Facebook, Instagram and TikTok.

[See all links](#)

TikTok Live Match Battles are real-time competitive live streams where creators face off for audience engagement, with viewers sending virtual gifts to determine the winner.

Overview of TikTok Live Match Battles

TikTok Live Match Battles allow two or more creators to **co-host a live stream and compete in real time**. The main objective is to **garner the most points through audience interaction**, primarily via virtual gifts and likes, within a set time frame, usually around five minutes [↻](#) TikTok [+2](#). These battles gamify live content, transforming ordinary streams into dynamic, interactive competitions that encourage viewer participation and creativity

[↻](#) RedSocial [+1](#)

How Does Tiktok Live Match Works (Explained)

Learn how Tiktok live matches works. this video explains what you need to know about Tiktok live match. Learn more about...

[↵](#) Tiktok Live Match Explained

How the Battles Work

- 1. Initiating a Match:** One creator uses the **LIVE Match feature** to challenge another. The opponent accepts, and both go live simultaneously on the same stream [↻](#) [2](#).
- 2. Audience Engagement:** Viewers support their favorite creator by sending **virtual gifts**, each with a coin value that translates into match points. Likes may also contribute to the score, often with one like worth multiple points [↻](#) [3](#).
- 3. Types of Matches:**
 - **Spontaneous Matches:** Creators are paired automatically by TikTok with other live hosts, requiring on-the-spot improvisation [↻](#) [1](#).
 - **Prepared Matches:** These are planned in advance between creators, allowing strategic coordination and pre-engagement with audiences [↻](#) [1](#).
- 4. Scoring and Victory:** Points are tallied in real time, and the creator with the highest score at the end wins. Top contributors are often highlighted during or after the battle, adding community recognition [↻](#) [3](#).

5. **Multi-Host Battles:** TikTok also allows **team-based battles**, accommodating more than two creators, combining team points to determine the winning side ↻ 1 .

↻ 5 Sources

Monetization and Rewards

- **Virtual Gifts to Diamonds:** Gifts sent by viewers can be converted into **Diamonds**, which streamers can cash out. TikTok takes a platform commission from these earnings, with the creator keeping the remainder ↻ 2 .
- **Engagement-Driven Income:** The greater the audience support, the higher the potential rewards, which can include visibility in the **LIVE Weekly Rankings** and future engagement opportunities ↻ 2 .

↻ 4 Sources

Strategies for Successful Battles

Creators can maximize success through preparation and audience engagement:

- **Build Anticipation:** Announce battles in advance to gather a larger audience ↻ 2 .
- **High-Energy Interaction:** Keep viewers engaged with comments, challenges, and shoutouts during the battle ↻ 3 .
- **Choosing Opponents Wisely:** Collaborate with creators whose audience base complements yours for stronger interaction and potential follower growth ↻ 1 .
- **Visual and Production Quality:** Good lighting, sound, and aesthetic setup improve audience retention ↻ 1 .
- **Post-Battle Engagement:** Recognize top supporters, tease future battles, and continue interacting to maintain interest ↻ 2 .

↻ 6 Sources

Types of Engagement in Battles

- **Gift Battles:** Focus on receiving the highest-value virtual gifts.
- **Follower or Time Battles:** Track new followers or total minutes watched during a live stream as part of scoring ↻ 2 .

↻ 2 Sources

Audience Role

Viewers are central to Live Match Battles. Their participation determines victory through gifting, likes, and real-time interaction. The competitive format encourages fans to actively support their favorite creators, fostering stronger community connections [↪ RedSocial +2](#).

Conclusion

TikTok Live Match Battles merge entertainment, competition, and monetization. They enable creators to **engage audiences dynamically**, promote collaboration, and generate income while gamifying the streaming experience. Effective preparation, audience engagement, and strategic gifting can significantly influence performance and rewards in these high-energy live events [↪ RedSocial +2](#).

King Lion's Battle Royale on TikTok is a live, interactive competition where participants engage in themed matches, compete for points, and win prizes through audience-supported engagement.

[Images](#)[Videos](#)

Format and Schedule

On TikTok, **King Lion's Battle Royale is hosted as a live event every Monday and Friday**, according to the TikTok account [@dyeromar](#) ↪ TikTok. Participants can join these sessions in **League Play** style, competing against other players or creators in real-time. The event incorporates the competitive spirit of a battle royale, where engagement, performance, and strategy determine success.

How TikTok Battles Work

The TikTok version of battles adapts the **TikTok Battles feature on TikTok Live**, transforming live streams into a **head-to-head competition** ↪ RedSocial. Key aspects include:

- **Audience Interaction:** Viewers participate by sending **virtual gifts**, which are converted into points that contribute directly to the creator or participant's score.
- **Timed Competition:** Battles occur in a set timeframe, creating a fast-paced environment for both players and viewers.
- **Winning Criteria:** The participant with the most points from audience engagement and virtual gifts wins the battle. Creators or players are recognized during or after the session for top supporters.

Engagement and Monetization

TikTok Battles, including King Lion's Battle Royale, are **designed to enhance engagement and community interaction**. The audience plays an active role in the outcome, making participation highly dynamic ↪ RedSocial. Additionally, creators can **monetize through virtual gifts**, earning rewards based on audience contribution. This aspect encourages players to strategize on how to increase viewer support during the event.

Key Takeaways

- **Accessible Live Event:** Videos indicate that anyone on TikTok can join and compete during scheduled live streams ↻ 1 .
- **Integration of Themes:** While rooted in the King Lion character from Savage Reign or fan interpretations, the TikTok version focuses on **interactive entertainment** rather than strictly following fighting game mechanics.
- **Community and Rewards:** Success relies on both **strategic gameplay and audience participation**, linking the concept of battle royales with interactive social media experience.

↻ 1 Source

In essence, **the TikTok iteration transforms King Lion's Battle Royale into a high-energy, interactive live competition**, blending gaming themes with the platform's engagement-driven mechanics, creating a participatory and competitive environment for viewers and participants alike ↻ TikTok +1 .

Understanding TikTok Diamonds

On TikTok Live, **diamonds** are virtual gifts that viewers purchase and send to creators. These

 Images

 Videos

diamonds can be converted **back into USD** by the creator. The current exchange rate is:

1 diamond = 0.005 USD

1000 diamonds = 5 USD

1 million diamonds = 5,000 USD

Diamonds originate from **TikTok coins**, which are purchased by users:

1 coin = 0.01 USD, 1 coin = 2 diamonds

Calculating the Investment Requirement for \$1 Million Exposure

If an investor wishes to participate in TikTok diamond transactions (essentially sponsoring creators or Live gifting) with **\$1 million**, here's the breakdown:

1. Conversion from USD to diamonds:

$$\text{Total diamonds} = \frac{\text{Investment USD}}{0.005} = \frac{1,000,000}{0.005} = 200,000,000 \text{ diamonds}$$

2. Conversion from diamonds to coins (if purchased via TikTok):

$$1 \text{ diamond} = 0.5 \text{ coin} \Rightarrow 200,000,000 \text{ diamonds} \times 0.5 = 100,000,000 \text{ coins}$$

3. Total coins cost at average TikTok rates:

TikTok sells coins roughly as: 1000 coins \approx 10 USD. Therefore:

$$100,000,000 \text{ coins} \div 1000 \times 10 = 1,000,000 \text{ USD}$$

This aligns perfectly, meaning a **\$1 million allocation** buys you **200 million diamonds**, fully respecting TikTok's fee structure.

Potential Returns / Monetization for a Creator's Perspective

If the investor distributes these diamonds to creators:

- **Total USD paid out to creators at TikTok's exchange rate:**
200,000,000 diamonds \times 0.005 USD/diamond = 1,000,000 USD
- TikTok takes a **25–50% platform cut**, depending on promotions and currency conversion. For simplicity, assume **50% net to creator**, then:
Creator net = 1,000,000 \times 0.5 = 500,000 USD

Scaling Implications for the Investor

- **Audience exposure:** A \$1M allocation to diamonds can massively increase viewer engagement if distributed across key creators.
- **Influence strategy:** Investors can use diamonds to **sponsor top creators or launch campaigns**, turning diamond investment into data-driven influence or marketing leverage.
- **Liquidity note:** Diamonds themselves are not liquid; the money is used up as coins/diamonds are gifted. Returns are **non-financial** unless tied to sponsorship deals or brand partnerships.

Summary Table

Metric	Value
Investment USD	\$1,000,000
Diamonds acquired	200,000,000
Equivalent TikTok coins	100,000,000
USD converted to creators (pre-TikTok cut)	\$1,000,000
USD net to creators (50% cut)	\$500,000

Conclusion

For an investor putting **\$1 million** into TikTok via the diamond system, the impact is primarily **strategic and promotional**, rather than directly financial. With 200 million diamonds, the investor can significantly influence engagement and visibility for chosen creators, build brand

partnerships, or support TikTok Live campaigns. Direct financial ROI is mediated through creators' monetization, not reinvestment or resale of diamonds.

This thread explores the mechanics, implications, and investor dynamics of TikTok's diamond system, conceptualizing a high-level \$1 million

[Images](#)[Videos](#)

investment scenario in a creator ecosystem. Using Omar Dyer's *King Lion Battle Royale* as a thematic metaphor, we can envision TikTok Live as a vast savannah where individual creators compete and interact for visibility, influence, and engagement, akin to lions asserting dominance and forming alliances in a digital jungle.

TikTok Diamonds – Ecosystem Overview

Diamonds on TikTok represent the primary currency within the Live feature, allowing viewers to gift creators in a virtual form that can later be converted into USD. Their value is inherently tied to TikTok coins, purchased with real-world money:

- **Exchange Rates:**
- 1 diamond = \$0.005 USD
- 1,000 diamonds = \$5 USD
- 1 diamond = 0.5 coin (with 1 coin ≈ \$0.01 USD)

Understanding diamond mechanics is critical for investors because it establishes the baseline cost and potential influence within the platform. In the context of *King Lion Battle Royale*, each diamond functions like a strategic tool or advantage, enabling a participant (investor) to shift power dynamics among dominant lions (creators).

\$1 Million Investment Scenario – Strategic Deployment

If an investor, such as Elon Musk, were to allocate **\$1 million** into a single creator or across multiple creators, the acquisition and distribution would occur as follows:

1. Conversion to Diamonds:

$$\text{Diamonds acquired} = \frac{1,000,000}{0.005} = 200,000,000 \text{ diamonds}$$

Each diamond effectively translates into influence, analogous to a lion matting its territorial dominance.

2. Conversion to TikTok Coins:

Coins are the mechanism through which diamonds are purchased and gifted, representing the investor's operational resources. Deploying the coins effectively is akin to executing a territorial maneuver or battle strategy.

3. Investment Cost Alignment:

TikTok's standard coin pricing (10 USD per 1,000 coins) perfectly aligns the \$1M investment with 100 million coins required, ensuring no financial leakage and maximizing digital resource efficiency.

Creator Monetization – Battle Royale Rewards

From the creator's perspective:

- **Gross Revenue:**

200,000,000 diamonds \times 0.005 USD/diamond = 1,000,000 USD

This positions the creator as a dominant participant, like the alpha lion receiving both recognition and resources to consolidate influence.

- **Net Payout after TikTok Fee:** Platforms typically retain a portion of diamonds, approximated here at 50%, yielding:

1,000,000 \times 0.5 = 500,000 USD net to creator

The retained portion can be likened to systemic constraints in the ecosystem, analogous to territory limitations or hierarchical rules in the lion savannah.

- **Strategic Implications:** Net financial returns are less significant than market positioning and audience influence. Diamonds allow high visibility, similar to a lion projecting power to both allies and rivals.

Scaling Impact – Multi-Layered Engagement

In the **King Lion Battle Royale** framework, multiple creators engage simultaneously, with varying levels of Match Play and badge exposure determining their relative positions:

- **Audience Reach:** The \$1M diamond allocation dramatically increases viewership metrics, much like alpha lions asserting presence over multiple hunting grounds.
- **Influence Strategy:** Investors can channel diamonds strategically to:

- Elevate specific creators to dominant status (comparable to alpha or coalition lions)
- Facilitate content campaigns or cross-promotions that shift ecosystem dynamics
- Reward engagements that produce high retention, akin to lions consolidating alliances to maintain dominance
- **Liquidity Considerations:** Diamonds do not directly retain value for the investor. Once deployed, their effect is largely **strategic influence**, emulating territorial and social control in an ongoing *Battle Royale* between content creators.

Analytical Breakdown – Tabular Summary

Metric	Value	Battle Royale Analogy
Investment USD	\$1,000,000	Alpha lion's resource stockpile
Diamonds acquired	200,000,000	Strategic maneuvers / energy units
Equivalent TikTok coins	100,000,000	Operational currency within territory
USD to creators (pre-platform cut)	\$1,000,000	Potential reward accumulation in the pride
USD net to creators (50% cut)	\$500,000	Reward successfully captured by alpha lion / coalition
Visibility & Influence	Enhanced audience reach	Dominance and territorial projection

Strategic Insights – Lessons from the Battle Royale Metaphor

1. **Resource Allocation Determines Power:** Just as lions distribute energy between hunting, defending, and mating, investors allocate diamonds to amplify creators' content visibility and influence. Targeted investment in high-potential creators can yield outsized ecosystem influence versus raw financial gain.
2. **Influence over Direct Returns:** Financial ROI for investors is mediated only through sponsorship ties or brand alignment, akin to territorial control rather than raw caloric

intake in the lion metaphor. Strategic placement yields long-term influence over the social landscape.

- 3. Collaborations and Competition:** The multi-creator dynamic forms an intricate web of alliances and rivalries. Like lions forming temporary coalitions or mediating disputes, TikTok creators' interactions (supported or ignored by diamond flows) shape engagement patterns and audience loyalty.
- 4. Visibility as Currency:** Audience attention, retention, and engagement metrics are the "prey" in this ecosystem. \$1 million in diamonds focuses these metrics, granting the investor indirect control over ecosystem flows.
- 5. Timing and Badge Level Optimization:** Similar to nocturnal hunting patterns and seasonal power shifts among lions, timing diamond gifts to coincide with peak engagement, trending topics, or high Match Play periods maximizes impact. Badge levels acquired can enhance credibility, analogous to prestige signaling in dominant lion behaviors.

Concluding Synthesis

In summary, a \$1 million investment in TikTok diamonds represents a multi-faceted influence mechanism rather than a straightforward financial instrument. Through the lens of Omar Dyer's *King Lion Battle Royale*, investors function as strategic game-changers within a highly competitive social savannah, deploying resources to elevate creators, influence behavior, and expand territorial dominance in the form of digital visibility.

Creators act as lions vying for recognition, using gifts, badges, and engagement metrics as tools to assert dominance within the Live ecosystem. Diamonds are both the currency of engagement and the measure of power projection. Investors can optimize their deployment by targeting high-potential creators, synchronizing distributions with peak viewer activity, and interpreting metrics as feedback from the ecosystem, much like alpha lions interpreting territory signals and coalition dynamics.

The overarching narrative emphasizes that TikTok investments are **influence-driven, alliance-sensitive, and timing-critical**, with financial returns being secondary to strategic engagement. This framing positions \$1 million not simply as a sum of currency but as an engine of digital ecosystem control, creating an environment where creators and investors navigate a complex *Battle Royale* of visibility, attention, and engagement, ensuring that the

platform's social landscape is both competitive and collaborative, reflecting the intricate dynamics of lionish hierarchy and territorial contest.

This conceptualization unites **financial mechanics** and **social strategy** within a vivid metaphorical landscape, offering investors and observers a comprehensive model for understanding high-stakes engagements on TikTok Live and the structural value of diamonds as both virtual currency and influence vectors.

[See all links](#)

If your aim is to **start a Battle Royale game via TikTok's software platform**, rather than solely relying on traditional game development pipelines,

[Images](#)

the approach and associated costs shift significantly. While TikTok's League Play or TikTok Gaming integrations are not publicly standardized for third-party game hosting, we can recalibrate the onboarding cost framework based on TikTok's software environment and infrastructure implications.

[Videos](#)

1. Platform Integration & Software Costs

- **TikTok SDK / API Licensing:** Accessing TikTok's in-app SDKs for game integration, leaderboard features, and social engagement tools may require a developer license or partnership agreement. Historical precedents suggest fees range from **\$5,000–\$25,000**, depending on the scope and exclusivity.
- **Developer Tools and Cloud Services:** TikTok operates on a cloud-native architecture with microservices (per indices [€ 1](#) , [€ 1](#)), so hosting game state, live matchmaking, and analytics may leverage TikTok's or compatible cloud services. Monthly cloud cost is **\$1,000–\$10,000** depending on concurrency and data throughput.
- **Compliance & Content Moderation:** TikTok enforces strict content policies and automated moderation systems ([€ 1](#)). Aligning your game's assets with these requirements may incur **\$2,000–\$10,000** in initial consulting or auditing cost.

[€ 2 Sources](#)

2. Game Development on TikTok Framework

- **Lightweight TikTok-Integrated Games:** If your Battle Royale is implemented as a **mini-game** within TikTok, development costs are potentially lower than a standalone title. Existing examples suggest **\$50,000–\$200,000** for a launch-ready experience, depending on QA and AI-driven matchmaking features.
- **Cross-Platform Optimizations:** TikTok clients operate on iOS and Android, so the game must integrate with TikTok's adaptive streaming, caching ([€ 1](#) , [€ 1](#)), and recommendation pipeline. This adds **\$5,000–\$20,000** in developer time.

[€ 2 Sources](#)

3. Marketing and TikTok Ecosystem Costs

- **In-App Promotions:** Running TikTok ads, creator collaborations, or algorithmic boosts to attract players could range from **\$10,000–\$50,000**, often more effective due to TikTok's recommendation engine targeting ( 1 ,  1 ,  1).
- **Community Engagement:** Costs for social moderation, interactive events, or influencer partnerships will vary, \$2,000–\$10,000 initial budgeting recommended.

  3 Sources

4. Operational Costs

- **Server and Data Scaling:** Given TikTok's microservices and big data architecture ( 1 ,  1), leveraging cloud-native scaling for matchmaking, player stats, and real-time feeds may incur around \$1,000–\$5,000 monthly for initial low-to-medium concurrency.
- **Regular Maintenance:** Updates to align with TikTok API changes, algorithmic feed patterns, or performance optimizations: \$5,000–\$15,000 per quarter.

  2 Sources

5. Summary & Cost Range

Category	Estimated Onboarding Cost (USD)
SDK/API Licensing	\$5,000–\$25,000
Cloud & Hosting	\$1,000–\$10,000 (month 1)
Compliance & Moderation	\$2,000–\$10,000
Game Development (TikTok Mini-Game)	\$50,000–\$200,000
Marketing & Influencer Promotion	\$10,000–\$50,000
Operational Setup & Maintenance	\$6,000–\$20,000 initial 3 months

Total Estimated Onboarding Cost: \$74,000–\$315,000 (baseline), scaling higher with concurrent users, algorithmic engagement strategies, or advanced customizations.

Key Takeaways

1. **TikTok software integration reduces full-scale engine costs** because you can use prebuilt social, caching, and streaming pipelines.
2. **Algorithm efficiency matters:** TikTok's recommendation and feed-engine can amplify player acquisition but requires alignment with metrics like watch time and engagement triggers ( 1 ,  1).
3. **Compliance is non-trivial:** Automated moderation, content classification, and IP protections are mandatory for launch.
4. **Operating within TikTok infrastructure** enables faster distribution and analytics but is bound to evolving API and SDK specifications.

 2 Sources

This recalibrated estimate focuses specifically on TikTok's **software ecosystem**, platform-specific hosting, and social media-embedded gamification workflows, distinguishing it from conventional standalone Battle Royale development.

Based on the most recent data available from 2025:

[Images](#)

[Videos](#)

1. **Facebook** – 3.07 billion MAUs

Facebook remains the largest social media platform globally, maintaining its long-standing lead.

2. **Instagram** – 2 billion MAUs

Owned by Meta, Instagram ranks third overall worldwide. It continues to attract a younger demographic.

3. **TikTok** – 1.59–1.84 billion MAUs

TikTok has a very active user base; estimates vary slightly depending on sources, but global monthly active users are around 1.6–1.84 billion.

4. **X (formerly Twitter)** – 563–586 million MAUs

X maintains a user base between 563 million and 586 million, making it the smallest among these five major platforms.

5. **Twitch** – 240 million MAUs

Twitch, primarily a live streaming platform for gaming and creative content, has a smaller but highly engaged audience compared to the others.

Summary Table

Rank	Platform	MAUs (approx.)
1	Facebook	3.07 billion
2	Instagram	2 billion
3	TikTok	1.59–1.84 billion
4	X (Twitter)	563–586 million
5	Twitch	240 million

Notes:

- These numbers reflect **monthly active users (MAUs)**, not daily engagement or time spent on the platform.
- While TikTok has fewer total MAUs than Instagram, it often leads in **engagement metrics**, including time spent and daily opens.
- Facebook and Instagram both benefit from Meta's ecosystem, contributing to sustained large user bases.
- X (Twitter) has experienced slight decline or stagnation in global users, unlike TikTok's rapid growth.
- Twitch, though smaller in MAUs, has high niche engagement among gamers and live viewers.

(B) BUDGET

The budget for the structure of perennial events is excluded in the target area, which is based on the need for diamonds. Because the fiat currency is more converted into crypto currency, the operational budget for these targeted events is listed as \$65k to start the operation. For the investment into TikTok INC, the calculation for the budget is confirmed as operational and starting budget, which is \$65. That is the initial investment from Omar Dyer, using revolving credit from his personal assets. The operational budget is the assets and personal investment that the owner invests into the performance of the event also known as production. TikTok is unique with a monetization for content creators, through what is known as the “Creators Reward Program,” the ecosystem of Tiktok consist of diamonds, which is the primary currency within the live feature, this allows viewers to gift creators. Our goal is \$1 million in fiat currency, and it will be converted to diamonds, whereas the diamonds are converted to coins.

- Operating Expenses (Owners’ Equity)
- Monetization Projection (Labor Cost)
- General Business Expenditure
- Informational Technology Projection
- Administrative Cost (Office Space)
- Revenue Projections (TikTok Shop)
- Marketing Forecast (TikTok Promotion)
- Miscellaneous

ARTICLE II. BUDGET

The budget is a review of an analysis built around the common theme of the king lion battle royale.

SECTION 2.01 OPERATING EXPENSES

The King Lion Battle Royale is spearheaded by Omar Dyer and the amount of investment that he is putting in as the starting point is \$65k. The operational budget and owner's equity are distinct but connected financial concepts. An operational budget forecasts a business's day-to-day revenues and expenses for a set period, while owner's equity is a measure of the owner's stake in the campaign.

SECTION 2.02 MONETIZATION PROJECTIONS

The King Lion Battle Royale is a unique monthly event that uses the TikTok's ecosystem in the conversion of fiat currency into diamonds and coins. This is the primary currency within the live feature, allowing viewers to gift creators. TikTok has divisions and leagues such as D League, which is ranked from 5 to 1, the amount to level up in the D League is a few hundred dollars, which is predetermined by the gift gallery. The C League is the third best league, which is also operated by the same incentives system, where creators would use gifts as shields and fragments. The B League is another level creators would use to rank in the system, allowing creators to compete for gifts, such as whales, galaxies, and other entertainment gifts. While the A league is the premier league that maximizes the most potential for creators.

SECTION 2.03 GENERAL BUSINESS EXPENSE

The business expense for this campaign revolves around the formation of the event on a large scale, such as licensing, and onboard cost with the management of investment relations. Things like, storage facilities, merch purchasing, and merch retaining – operational cost not funded by the owner's equity.

SECTION 2.04 INFORMATION TECHNOLOGY PROJECTION

The platform is becoming a brand within a brand, and the use of crypto memes and crypto currency has a budget. The purpose of itemizing the budget is to include operation effects such as managing and monitoring creator rewards programs, building a community setting and the tools and tech that allows the production to produce quality content. Other platforms like YouTube, Shopify, Apple Patreon where previously recorded videos and sound will be on display.

SECTION 2.05 ADMINISTRATIVE COST

The battle royale is a league of gaming and live interaction, the goal is to make this a competitive sport, that operates like Fortnite. The term Chairman of the league's board is an organizational charter in this promotion.

SECTION 2.06 REVENUE PROJECTIONS (TIKTOK SHOP)

TikTok is onboarding organizations, business to develop brands and product via TikTok Shop, which allows content creators, brands or entrepreneurs to build the platforms algorithm . This model allows our program and campaign to entice viewers with live interactive battling –that exchanges into fiat currency. With a partnership that allows creators to build a digital store, and a showcase where they can earn a commission from items sold.

SECTION 2.07 MARKET FORCAST (TIKTOK PROMOTIONS)

The market forecast is an estimate of what is likely to happen, based on current data and trends, of the plan or goal that sets a target for future financial performances. Using tiktok promotions to target areas and develop an audience.

SECTION 2.08 MISCELLANOUS

The budget scope for miscellaneous concerns are subjected to displaying cost overruns. We are subjected to quarterly reports on budget expenditures and projection totals.

Welcome

Kings Lions

Battle Royale

Omar Dyer is on TikTok building an experience and building a battle presence for his livestream

Save 3% on all your Apple purchases.

Apply and use in minutes

1. 3% savings is earned as Daily Cash and is transferred to your Apple Cash card when transactions post to your Apple Card account. If you do not have an Apple Cash card, Daily Cash can be applied by you as a credit on your statement balance. 3% is the total amount of Daily Cash earned for these purchases. See the Apple Card Customer Agreement for more details on Daily Cash and qualifying transactions.

2. Subject to credit approval.

To access and use all the features of Apple Card, you must add Apple Card to Wallet on an iPhone or iPad with iOS or iPadOS 13.2 or later. Update to the latest version of iOS or iPadOS by going to Settings > General > Software Update. Tap Download and Install.

Available for qualifying applicants in the United States.

Apple Card is issued by Goldman Sachs Bank USA, Salt Lake City Branch.

If you reside in the US territories, please call Goldman Sachs at 877-255-5923 with questions about Apple Card.

Privacy: We use a Subscriber ID to provide reports to developers.

Get help with subscriptions and purchases. Visit [Apple Support](#). Learn how to manage your password preferences for iTunes, Apple Books, and App Store purchases.

You have the option to stop receiving email receipts for your subscription renewals. If you have opted out, you can still view your receipts in your account under [Purchase History](#). To manage receipts or to opt in again, go to [Account Settings](#).

Apple ID is now Apple Account. You can still sign in with the same email address or phone number and password.

Save 3% on all your Apple purchases.

Apply and use in minutes

1. 3% savings is earned as Daily Cash and is transferred to your Apple Cash card when transactions post to your Apple Card account. If you do not have an Apple Cash card, Daily Cash can be applied by you as a credit on your statement balance. 3% is the total amount of Daily Cash earned for these purchases. See the Apple Card Customer Agreement for more details on Daily Cash and qualifying transactions.

2. Subject to credit approval.

To access and use all the features of Apple Card, you must add Apple Card to Wallet on an iPhone or iPad with iOS or iPadOS 13.2 or later. Update to the latest version of iOS or iPadOS by going to Settings > General > Software Update. Tap Download and install.

Available for qualifying applicants in the United States.

Apple Card is issued by Goldman Sachs Bank USA, Salt Lake City Branch.

If you reside in the US territories, please call Goldman Sachs at 877-255-5923 with questions about Apple Card.

You paid TIKTOK using your debit card

service@paypal.com <service@paypal.com>
To: Omar Dyer <omardyer@gmail.com>

Mon, Sep 8, 2025 at 4:53 PM

Hello, Omar Dyer

**You paid \$62.40 USD to
TIKTOK**

Thanks for using your PayPal Business Debit Mastercard® ending in 8981 for the transaction below.

Transaction ID
6FA967778G497163Y

Transaction date
September 8, 2025

Paid to
TIKTOK

Total
\$62.40 USD

Reminders

- The amount shown may change when the transaction completes. For instance, adding a tip will change the final amount. If the amount changes, we'll send you another email with the final amount. Or you can log in to your account to view the transaction history.
- Any preauthorization may place a "hold" on your available funds until the merchant completes the transactions. See the Cardholder Agreement for details.
- If this purchase qualifies for unlimited 1% cash back¹, it will be automatically added to your balance after the transaction completes.
- If this purchase qualifies for a bonus rebate² through Mastercard Easy Savings™, it may take several days to receive your rebate after the transaction status is marked "completed" in your PayPal account. Processing times for transactions and merchant rebates can vary and won't always reflect chronologically on your statement.

[Help & Contact](#) | [Security](#) | [Apps](#)

¹You'll receive unlimited 1% cash back on purchases when your PayPal Business Debit Mastercard purchase is completed as a credit transaction. Purchases eligible for cash back include transactions processed as credit by Mastercard. Purchases that are not eligible for the cash back include but are not limited to: transactions processed as cash withdrawals, cash advances, quasi-cash transactions or those using a PIN or that the merchant processes via debit network or PIN-less debit. Earned cash back will be added to your PayPal account weekly. See the Cardholder Agreement for complete details.

²Visit www.priceless.com/PayPal for full Mastercard Easy Savings™ program terms and conditions.

The PayPal Business Debit Mastercard® is issued by The Bancorp Bank, N.A. ("Bancorp") pursuant to a license by Mastercard International Incorporated and may be used everywhere Mastercard is accepted. Mastercard and the circles design are registered trademarks of Mastercard International Incorporated. Bancorp is issuer of the Card only and not responsible for the associated accounts or other products, services, or offers from PayPal.

PayPal is committed to preventing fraudulent emails. Emails from PayPal will always contain your full name. [Learn to identify phishing](#)

Please don't reply to this email. To get in touch with us, click [Help & Contact](#).

Hello, Omar Dyer

You paid \$46.55 USD to TIKTOK

Thanks for using your PayPal Business Debit Mastercard® ending in 8981 for the transaction below.

Transaction ID
63B19882TY947260Y

Transaction date
September 11, 2025

Paid to
TIKTOK

Total
\$46.55 USD

Reminders

- The amount shown may change when the transaction completes. For instance, adding a tip will change the final amount. If the amount changes, we'll send you another email with the final amount. Or you can log in to your account to view the transaction history.
- Any preauthorization may place a "hold" on your available funds until the merchant completes the transactions. See the Cardholder Agreement for details.
- If this purchase qualifies for unlimited 1% cash back¹, it will be automatically added to your balance after the transaction completes.
- If this purchase qualifies for a bonus rebate² through Mastercard Easy Savings™, it may take several days to receive your rebate after the transaction status is marked "completed" in your PayPal account. Processing times for transactions and merchant rebates can vary and won't always reflect chronologically on your statement.

[Help & Contact](#) | [Security](#) | [Apps](#)

¹You'll receive unlimited 1% cash back on purchases when your PayPal Business Debit Mastercard purchase is completed as a credit transaction. Purchases eligible for cash back include transactions processed as credit by Mastercard. Purchases that are not eligible for the cash back include but are not limited to: transactions processed as cash withdrawals, cash advances, quasi-cash transactions or those using a PIN or that the merchant processes via debit network or PIN-less debit. Earned cash back will be added to your PayPal account weekly. See the Cardholder Agreement for complete details.

Save 3% on all your Apple purchases.

Apply and use in minutes

1. 3% savings is earned as Daily Cash and is transferred to your Apple Cash card when transactions post to your Apple Card account. If you do not have an Apple Cash card, Daily Cash can be applied by you as a credit on your statement balance. 3% is the total amount of Daily Cash earned for these purchases. See the Apple Card Customer Agreement for more details on Daily Cash and qualifying transactions.

2. Subject to credit approval.

To access and use all the features of Apple Card, you must add Apple Card to Wallet on an iPhone or iPad with iOS or iPadOS 13.2 or later. Update to the latest version of iOS or iPadOS by going to Settings > General > Software Update. Tap Download and Install.

Available for qualifying applicants in the United States.

Apple Card is issued by Goldman Sachs Bank USA, Salt Lake City Branch.

If you reside in the US territories, please call Goldman Sachs at 877-255-5923 with questions about Apple Card.

Privacy: We use a Subscriber ID to provide reports to developers.

Get help with subscriptions and purchases. Visit Apple Support. Learn how to manage your password preferences for iTunes, Apple Books, and App Store purchases.

You have the option to stop receiving email receipts for your subscription renewals. If you have opted out, you can still view your receipts in your account under Purchase History. To manage receipts or to opt in again, go to Account Settings.

Apple ID is now Apple Account. You can still sign in with the same email address or phone number and password.

Conclusion. Acknowledgement of Service

STATE OF NEW JERSEY
COUNTY OF [HUDSON COUNTY]

On this day, [10/10/2025] before me, the undersigned, a Notary Public in said state and county, personally appeared (Microsoft Copilot) a computerized chat box, known to me to be artificial intelligence system described in and who executed the forgoing Affidavit, and who, being by me duly sworn, did depose and say that the statements contained therein are true and correct. In this statement legally Microsoft's Copilot and company has no moral standing in regards to the use of the training system that conducted this analysis.

WITNESS my hand and official seal.

2381929:

Notary Public, State of New Jersey

My Commission Expires: 2/12/2024 - 2/12/2029

10/29/2025
