

# INVESTMENT POLICY STATEMENT

Prepared For:  
Coaches 101 A NJ Nonprofit  
"KLBR" (King Lion Battle Royale)

## Investment Policy Statement of "KLBR"

The purpose of this Investment Policy Statement (IPS) is to establish guidelines for the investable assets of the client's portfolio.

**OVERVIEW:** The primary objective is short-term organization of fundraising for long-term preservation of capital. This is to be accomplished through equity crowdfunding raising without payable dividends on loan stock payments, or capital raised through an NFT (Non-fungible token) or token, if applicable. The allocation, outlined below, considers the client's investable assets to be managed by Coaches 101 A NJ Nonprofit, and the employed "Angel Investor" Omar Dyer.

### OBJECTIVES:

- 1) Create short term fundraising obligations via social media;
  - a) Using Facebook and Shopify as funding sources on personal fundraisers;
  - b) Crowdfunding efforts to attain a marketplace for the cryptocurrency;
- 2) Maximize returns within reasonable levels of risk for the BYDKIATJ Token;
  - a) Manage a portfolio of short-term investments to reach one goal of \$50,000 on the Blockchain;
  - b) Create a source of funding and reels for Meme Art and Meme Stock, as part of Omar Dyer's NFT Academy, and the Angel's Investors Program or the Angel Investors' Apprenticeship;
- 3) Maintain diversification of the investments
  - a) Organize the nonprofit "without tax exemption" Direct Public Offering
    - i) *A Direct Private placement allows nonprofit organizations to list directly to a private list on any exchange with \$50,000 in equity;*
  - b) Marginalize the nonprofit's ICO (Initial Coin Offering)
    - i) *Allows a nonprofit to list an NFT (non-fungible token) or cryptocurrency on to a public exchange as part of a Direct Listing, that has reached \$50,000 in equity, and has startup funds of \$35,400;*
  - c) Categorize the nonprofit as a private foundation, with credentials of a nonprofit hedge fund;

For the purpose of making distributions, the advisor will execute total-return-based spending, meaning distributions will be executed from net investment income, net realized capital gains, and proceeds from the sale of investments. The AI software used from TikTok USA and Byte dance was to create this utility asset, is apart of the work made for higher copyright under a human authorship for the public rights of Omar Dyer. The image is because AI copyright is not fully settled when a human's public right is expressed.

Investments will be focused on quality securities (like Meme Art and Meme Stocks or NTFs) that are diversified among asset classes and within broad industry categories for each asset class, so as to help minimize risk. Low-cost, passive investment solutions will be used.

**TIME HORIZON:** The investment guidelines are based upon an investment horizon no greater than 100 years and are considered legacy investments. The portfolio's asset allocation is based on this long-term perspective, of 1 year maturity rates on short sales that are for loan stocks, in which will be donated and invested into the company's portfolio on a 100-year maturity rates for Meme Art, and Meme Stock that include NFTs. While the time horizon of the portfolio is at least 1 year, distributions may occur before the ledger on that 10-year period ends.

**RISK TOLERANCES:** KLBR has a risk score of 72 out of 100, which suggests the mutual fund has a moderate tolerance for risk and has a safe program to secure investments and assets, with an employed "Angel Investors." The portfolio's long-time horizon coupled with the risk tolerance suggests that substantial fluctuations in market value and rates of return may be tolerated in order to achieve the investment objectives. And the objective of the portfolio is to crowdfund on assets that have already been invested. These converted stocks and assets are the beneficiary of the brand known as KLBR.
